JULY 25

10:00 A.M. – 12:00 P.M.
RAIN OR SHINE | LUNCH PROVIDED

WASHINGTON COUNTY FAIRGROUNDS
810 E HOLZHAUER DR | NASHVILLE, IL 62263

RSVP BY:
**FRIDAY,
JULY 17**

Call (618) 327-3081
to the Washington
County Farm Bureau

Washington County Farm Bureau (CFB) is hosting a summer field day as part of their multiyear cover crop project. Through active collaboration with Gateway FS, local farmers have been evaluating different cover crop practices and their effects on soil health, cash crop health, and return on investment. This program will feature discussion on cover crop planting, regenerative agriculture management, soil health monitoring, and the importance of cover crops on carbon

sequestration. Speakers from Holganix, Acher Agronomy, and Understanding Ag will provide more information on regenerative agriculture and implementation. Join us for education, conversation, and catered lunch.

Join us to learn about cover crop research in Washington County and get the latest producer insights regarding cover crops and nutrient management strategies.

AGENDA

Gerald Kuberski
President, CFB

WELCOME & INTRODUCTION

Bena Pegg
Illinois Farm Bureau

**ENVIRONMENTAL
STEWARDSHIP PROGRAM &
