Call your local
CFB to register.

The Regenerative Ag Bus Tour includes breakfast, lunch, and dinner. Come to learn and meet others interested in nutrient management and cover crops.

Clark, Cumberland, Jasper and Richland County Farm Bureaus have partnered to

deliver this field day tour. It features stops at Southern Illinois University Carbondale to meet with soil scientists and visit field research areas. Then, the buses will head to Southern FS where participants will learn more about drone seeding cover crops and drone precision management.
